

FSC® is taking the guesswork and complexity out of EUDR requirements, helping certificate holders become compliant.

If you're selling within or exporting from the EU, your business needs to become EUDR-compliant. This means showing your forest-based products are legal, not sourced from deforested land, and do not contribute to degradation. It's a complex task that the Forest Stewardship Council® (FSC) can help you with.

SUPPORTING COMPLIANCE - FSC ALIGNED FOR EUDR

THE BENEFITS OF FSC ALIGNED FOR EUDR

Why choose FSC Aligned Certification for EUDR?

- **PURPOSE-BUILT FOR ACCURACY**
Specifically aligned with EUDR requirements, taking the guesswork out of compliance for you.
- **NATURAL PROGRESSION**
Your FSC certification is already a strong mitigation measure against deforestation, so you're building on a solid foundation.
- **CREDIBLE ASSURANCE**
By leveraging the power of independent third party verification, you're given an extra layer of credibility.
- **THOUGHTFUL RISK MITIGATION**
Every aspect of your supply chain is considered to ensure you're aware of potential risks & empowered to mitigate them, thanks to our guiding framework.

Why use FSC Aligned Reporting for EUDR?

- **TRACEABILITY**
FSC Trace provides infrastructure that allows critical data about the origin of forest-based products to flow from forest managers to downstream customers who need it for EUDR reporting.
- **THOROUGH VETTING:**
Integrates information from risk assessments that are created under a tailored risk framework & then verified by an FSC certification body.
- **AUTOMATED ASSISTANCE**
Draft Due Diligence Statements & Reports automatically, so that they are generated on demand for your submission to competent authorities.
- **MAKES DATA MANAGEMENT SEAMLESS**
Data needed for due diligence is automatically pulled & consistently structured for you, all in one place. This makes it easy to use, especially when you're dealing with complex or dynamic supply chains that produce a lot of data.
